

My savings goal chart

Write what you're saving for and what it costs. Each square is one hundredth of the price: colour them in every payday and watch the gap close.

I'm saving for _____

It costs _____ Each square is worth _____ I started on _____

DRAW IT HERE

How much is one square?

IF IT COSTS	EACH SQUARE IS
10.00	0.10
20.00	0.20
50.00	0.50
100.00	1.00

Anything else: the price ÷ 100.

91	92	93	94	95	96	97	98	99	100 GOT IT!
81	82	83	84	85	86	87	88	89	90
71	72	73	74	75 ¾ WAY	76	77	78	79	80
61	62	63	64	65	66	67	68	69	70
51	52	53	54	55	56	57	58	59	60
41	42	43	44	45	46	47	48	49	50 HALFWAY
31	32	33	34	35	36	37	38	39	40
21	22	23	24	25 ¾ WAY	26	27	28	29	30
11	12	13	14	15	16	17	18	19	20
1	2	3	4	5	6	7	8	9	10

Start at square 1, bottom left, and colour upwards.

I got it on _____

Colouring in on payday

Count up in square-sized steps until you reach what you saved this week, and colour that many. The white squares are how far you still have to go.

For the grown-up

Keep the goal within about a month for under-tens and two months for older children. Agree any matching before square 1, and don't colour the last few in for them.

Child Allowance

My savings goal chart · childallowance.app/learn

In the app the goal fills in by itself whenever a job is approved.
